

IT Helpdesk Quick Reference Guide

Version: 1.2

Department: IT Operations

Last Updated: July 2026

Overview

This guide describes common IT support procedures for employees, including password resets, VPN access, software installation, and incident reporting.

Password Reset

Employees must reset passwords every 90 days. To reset a password, visit the Self-Service Password Portal, verify using MFA, and create a password with at least 12 characters, one uppercase letter, one number, and one special character.

VPN Access

Remote employees should use SecureConnect VPN. The VPN server address is vpn.company.internal. MFA is required for every login. Contact the Helpdesk if error code VPN-403 appears.

Software Installation

Approved software can be requested through the IT Service Portal. Standard requests are fulfilled within two business days. Administrator approval is required for developer tools.

Incident Severity

Severity 1: Complete service outage. Response time: 15 minutes.

Severity 2: Major functionality affected. Response time: 1 hour.

Severity 3: Minor issue. Response time: 4 hours.

Severity 4: General request. Response time: 1 business day.

Frequently Asked Questions

Q: How often must passwords be changed?

A: Every 90 days.

Q: Which VPN client should employees use?

A: SecureConnect VPN.

Q: What is the response time for a Severity 1 incident?

A: 15 minutes.
