

Sample API Guide

1. Introduction

This is a sample API documentation for testing the document loader. The PDF contains multiple sections and paragraphs.

2. Getting Started

To get started with our API:

1. Sign up for an account
2. Generate an API key
3. Make your first request

3. Authentication

All API requests must include your API key in the Authorization header. We support Bearer token authentication.

4. Endpoints

The following endpoints are available:

- GET /api/users - List all users
- POST /api/users - Create a new user
- GET /api/users/{id} - Get a specific user
- PUT /api/users/{id} - Update a user
- DELETE /api/users/{id} - Delete a user

5. Error Handling

Errors are returned as JSON with appropriate HTTP status codes.

- 400: Bad Request
- 401: Unauthorized
- 404: Not Found
- 500: Server Error

6. Rate Limiting

API requests are rate-limited to 1000 requests per hour per API key.

7. Support
